

FADE IN

INT. BATHROOM - DAY

A GREEN TOILET stands out on a very white decorated bathroom. The bathroom has two opened wooden doors one to the right and the other to the left left. The right room is in black but pink shades of light are visible. The left room has a light on. Suddenly a round shaped LIGHT arises from the green toilet. Smaller rounded lights follows.

All lights move towards the left room.

INT. LEFT ROOM - DAY

The light from the room comes from a lamp on top of a designer's table. There is a beautiful drawing of the same room in a big sheet of paper sign with a T. Rulers, pencils, an eraser and a sharpener are around it.

Everything in the room is neat. The decoration is plane. White sheets in the bed. The closet's door closed.

The rounded light moves to one corner of the room where a big carton box is covered with a blanket.

The blanket falls neatly to the ground.

Inside the big box is a big LEGO CITY. The whole city is in perfect order.

Side to the box there is a shelf with different handmade crafts. And several puzzles.

The light of the RIGHT ROOM is on.

INT. RIGHT ROOM - DAY

The right room is decorated in pink and it has a lot of puffy bears on the floor. The walls are full of Disney's princess posters. There is a brown neat journal on a desk.

When the light gets nearby the journal it opens and the pages start to turn. It stops on the same drawing that we saw before in the big sheet of paper in the Left room.

The closet's door is open. It reveals a complete variety of cloth divided by colors.

The bed is like a princess bed and everything is pink.

In the corner of the room is a beautiful shrine with a pink ball that spins and sends pink shades of light. In the middle of the shrine is a beautiful BALLERINA with pointe shoes on a ballet position.

STEPS in the left room makes the round shaped light sink to the ground fading out.

INT. RIGHT ROOM - MOMENTS LATER

The round shape light illuminates the room. It becomes stronger. The room is messy.

The journal is not longer in the desk.

The puffy bears are all around the room and follow to the bathroom.

The ball of pink light is on the floor. CV to the ball.

Slowly we get near to the shrine.

The Ballerina is gone.

INT. LEFT ROOM - CONTINUOUS

The journal is on the neat bed and now with a big lock on it. Everything is perfectly in order. STEPS from the right room makes the round shape light to hide in the big carton box with the lego city. It fades out.

INT. LEFT ROOM - MOMENTS LATER

The room's normal light is on. The journal is upside down.

The closet's door is open and the clothes are ordered by colors just like the right room.

The Lego's city blanket is on the floor. The city is untouched but the room looks messier.

The lamp on the designer's desk is off. The drawing is no longer on the desk.

INT. BATHROOM - CONTINUOUS

The bathroom is lighten up by the rounded shape light and the smaller lights getting out of the toilet. Both doors right and left are in deep darkness.

In the trash can aside to the green toilet is the left bedroom's drawing all crumpled. The rounded light gets near it. The drawing looks less crumpled.

Behind the green toilet on the floor lies the ballerina.

The rounded light gets near the other lights on top of the toilet.

Both rooms left and right light's are on. The lights in the bathroom sink in the green toilet. The bathroom goes darks.

INT. LEFT ROOM - LATER

The lamp of the desk is on. In the desk is a drawing of the bedroom. The bedroom in the drawing is colored in pink. The drawing has the a beautiful ballerina in the room which is not present on the real room. Side to the drawing is a journal.

The journal has a T. on it.

The drawing is sign with T&T.
